

## MORE CALLS FOR HELP COMING TO CIVIC LEAGUE

Cases of **Detitution Increase:**  
Housewives, However, Are  
Bothered Less by Handout  
Seekers; Visiting Nurse  
Work.

Large increase in the number of calls for help during December and November, need of regulations governing the acceptance of old clothing, glimpses of the work done by the visiting nurse and an insight into the relief afforded unfortunate sick persons at the colony, are some of the interesting subjects touched upon in the report of Secretary Reed, of the Civic Betterment League, for December and November. In part, the secretary's report says:

"The months were marked by a very large increase in calls for help. In fact there were almost twice as many last month as during October—seventy-two in November and sixty-five in December. Of course, many of these calls were for work and some were easily disposed of; while there were a number where it required a great deal of investigation and considerable expenditure of funds. As in the previous month tuberculosis is the main cause of distress in our city. Not merely the families who come here to live while some member makes the fight against the disease, but many who are simply going from place to place, often without funds and nothing to carry them on except their hope."

The month was also marked by a large number of calls from young men who are tramping through the country, supposedly looking for work.

The league has maintained a wood pile where it has given work to a great many men during the month.

**The Colony and the Nurse.**  
"During the past two months the colony has been filled to capacity and at one or two times, when it was possible, two men were placed in the same tent for a few days. There have been several very sick men there during the two months for whom it was necessary that we should care.

The coming of cold weather, of course, has increased the expense at the colony as it has in all other lines of work, and yet it has been true for these months as for months previous a great deal of real service has been rendered for the amount of money expended.

It has been impossible for Mrs. Scott to give as much time as we had hoped to the work of visiting nursing. She, however, has in several cases rendered very acceptable service to the needy sick.

It is evident that if the visiting nurse work is to be developed to any extent it will be necessary to employ another woman who can give all of

## SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years'  
Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach's troubles, and my punishment was more than any one could tell."

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until it was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlasting tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

## ROSENWALD EAST TO SELECT NEW SPRING STYLES

**Big Department Store Anticipated Rapid Rise in Merchandise, Buying 1916 Goods at Prices of 6 Months Ago.**

S. U. Rosenwald of Rosenwald Brothers left this morning for New York city to be gone for several weeks during which he will be engaged in the selection of the spring and summer stocks for the big Rosenwald department store. It is not strictly a buying trip for Rosenwald Brothers, because to be very grateful to a number of physicians who have given their services gladly at our call to men at the colony. Dr. W. W. Dill, Dr. Evelyn Frishbee, Dr. Rice, Dr. Huston, Dr. Cline and Dr. Lovelace have given their services in special cases. Many other physicians who have been caring for cases we were interested in have kindly conferred with and cooperated with us. Strong Brothers and C. T. French, undertakers, have responded quickly and graciously to our requests with their ambulance and automobile for the moving of the sick. Mr. Blakemore has also offered his services.

### Rules as to Clothing.

When the public school children made their donation of clothing it became evident that the charity committee must lay down some definite rules in regard to the reception and use of clothing; much of what was given was valueless and had to be thrown away. Therefore it is now the rule to receive no clothing without knowing from whom it comes and the assurance that it is sanitary and such as can be used for the poor. There is a considerable accumulation of garments for women, as there has been but little call for them, while the calls for men's clothing have been many. There have been many calls for children's clothing, and there is continual need for shoes for both men and children. The store house has improved so that it is possible now to handle clothes more advantageously than before."

### SAYS DIPHTHERIA UNDER CONTROL IN THE WHOLE COUNTRY

Dr. W. W. Sparge, county health officer, announced yesterday that diphtheria in the county, including Alameda, where the situation was threatening, is under control. Dr. Sparge says there is no danger of the disease spreading to this city.

Dr. Sparge has given close attention to the situation and has employed guards and nurses in enforcing quarantine.

Diphtheria has been prevalent in Corrales, north of Alameda, but Corrales is in Sandoval county and Dr. Sparge has been powerless to act there.
